PROFESSIONAL SUMMARY
Data Scientist and Analytics Specialist with 3 years of experience deriving strategic insights from high-dimensional datasets. Skilled in Python, Scikit-Learn, Pandas, NumPy, statistical hypothesis testing, and business intelligence dashboards in Tableau and Power BI.

CORE COMPETENCIES
- Programming & Analytics: Python, SQL, R, Pandas, NumPy, Scikit-Learn, Statistics, Hypothesis Testing, A/B Testing, Feature Engineering
- Machine Learning: Random Forest, XGBoost, Regression, Clustering, Predictive Modeling
- Visualization & BI: Tableau, Power BI, Plotly, Matplotlib, Seaborn, Excel
- Data Engineering & Cloud: PostgreSQL, Snowflake, BigQuery, ETL Pipelines, Git, Agile

PROFESSIONAL EXPERIENCE
Data Scientist | Vantage Analytics Group (2022 - Present)
- Developed customer churn prediction model using XGBoost and Scikit-Learn, achieving an AUC-ROC of 0.89 and saving $320K annually.
- Built automated ETL data pipelines querying Snowflake and PostgreSQL tables containing over 10M transaction records.
- Designed 12 executive dashboards in Tableau and Power BI monitored daily by C-suite executives.
- Conducted regular A/B experiments to evaluate conversion funnels and marketing campaigns.

Junior Data Analyst | MetroMetrics Corp (2021 - 2022)
- Cleaned and prepared complex datasets with Python (Pandas/NumPy) and SQL.
- Created monthly automated reporting decks and interactive charts using Plotly and Seaborn.
- Collaborated across marketing and product teams to define key performance indicators (KPIs).

EDUCATION
M.S. in Data Science & Statistics | Northwestern University (2019 - 2021)
B.S. in Mathematics | University of Illinois (2015 - 2019)
